HISTORY SHEET OF T. C. RAJAN.

This person is a doctor well known in Poona. He was at the India House, London, in July 1908 and was said to have resided there for a few weeks. He is not related to T. S. S. Rajan, and in the course of an interview he said he did not hold the extreme views of the younger members of the India House party, but believed in constitutional agitation.

He left London in August 1908 for Poona, and arrived in Bombay on September 4th. During the voyage he seems to have talked a good deal of sedition or what was considered sedition by a Mr. Stephens, a commercial traveller, who reported the matter to a member of the Bombay Police.
